Primary Source Verification Statement

The LSBME Verifications Service- **LicenseeSearch** provides data extracted by the LSBME from its own database. Data in this website is provided by and controlled entirely by the LSBME and therefore constitutes a primary source verification as authentic as a direct inquiry to the LSBME. The information provided through **LicenseeSearch** is all of the information pertinent and available in that field of information in the LSBME database and is the same information provided by LSBME staff to callers. If, after using different search values, the name searched cannot be found, this may be for any of the following non-exclusive reasons:

- licensee simply chose not to renew
- licensee is deceased
- licensee voluntarily surrendered the license or
- license suspended or revoked by the LSBME

The verification service database includes those regulated by the LSBME except Private Radiologic Technologists, Dispensing Physicians, and holders of interim and temporary permits. For information regarding those categories not included in the database and/or concerns about transmission errors, inconsistencies, or other data issues that may be identified from time to time, contact the LSBME at LSBMEVER@lsbme.org or write to the LSBME general correspondence address at LSBME, P. O. Box 30250, New Orleans, LA 70130-0250.
